2. Check the box of the camera you want to search a footage from

3. Click the "File list" Icon at the bottom and select the file you want to download

This example shows a normal recording with the letter " \mathbf{R} ", if you have motion recording you will see the letter " \mathbf{M} " at the end of each file

4. Once you checked or selected the file you want to download the **"Backup"** icon will be enabled at the bottom allowing you to click it.

5. Once you click the **"Backup**" icon the Backup window will show up showing your USB Stick status, click **"Backup**"
