WatchNET®

SECURITY SINCE 2000

EASY START-UP WIZARD

The system will go through **Device Initialization** and **Startup Wizard** after powering up for the first time. The system will prompt to set the system's language, video standard, system login information as well as the system's general settings.

Please take note of the new admin password as it can only be reset by email and security questions. If password cannot be recovered, system has to go thru the RMA process and ship to the manufacturer for factory default.

Device Initialization:

Step 1

Language and Video Standard

Prompt

Date&Time

System Time	2018 - 09 - 12 19 : 18 : 22
System Zone	(GMT-05:00)Eastern Time
Date Format	YYYY MM DD
Date Separator	-
Time Format	24-HOUR
DST	Week / Date
Start Time	Jan Last Su 01 : 00
End Time	Jan Last Su 00 : 00
NTP	
Server	time.windows.com Manual Update
Port	123
Interval(Min.)	60

Back   Next

Step 3

Change the default TCP/IP settings to match the local network. Click the **Test** button to do a quick test on the configuration. Click **Next** to proceed.

NETWORK

IP Version	IPv4
MAC Address	
DHCP	
IP Address	192 . 168 . 1 . 108
Subnet Mask	255 . 255 . 255 . 0
Default Gateway	192 . 168 . 1 . 1
DNS DHCP	
Preferred DNS	8 . 8 . 8 . 8
Alternate DNS	8 . 8 . 4 . 4
MTU	1500

Test   Back   Next

Step 4

Enable P2P for remote viewing as required. The status will say "online" if the network settings are correct. Click **Next** to proceed.

P2P

Enable

To assist you in remotely managing your device, the P2P will be enabled. After enabling P2P and connecting to Internet, we need to collect IP address, MAC address, device name, device SN, etc. All collected info is used only for the purpose of remote access. If you don't agree to enable P2P function, please deselect the check box.

Status   Offline
